PUBLIC WORKS DEPARTMENT**

PROJECT UPDATE

Project Name:

Meadowbrook Drive Water Main Replacement Project

Date:

December 2, 2011

Meadowbrook Drive Water Main Replacement Project: The new water main will replace a deteriorated and problematic 6-inch water main in Meadowbrook Drive from Forest Hills Road heading west for approximately 800 LF. The City will install a total of approximately 850 LF of 8-inch water main on Meadowbrook Drive and Forest Hills Road. Redpoint Construction was awarded the contract for the water main replacement.

The contractor began construction on Meadowbrook Drive on 10/14/11. Working conditions will be tight, however the contractor should maintain access for public traffic. At times during the next week Meadowbrook Drive could be temporarily closed during working hours as sewer service lines and water service lines are replaced. Traffic should watch for flagmen at all times. The road will be open to the public at the end of each day. The water main installation has progressed up Meadowbrook Drive to the west. Water outages will be experienced within the next two weeks. Fliers will be distributed 24hrs in advance of any water outages. The project should be completed in December. Access to private residences will be maintained.
