

Pavement Rehabilitation

SUMMER/FALL 2011

The City of Prescott and contractor Combs Construction Co. are set to begin work to repair and replace deteriorated asphalt pavement along sections of Goodwin St, Granite St, Iron Springs Rd, and Willow Creek Rd. The project is anticipated to be complete this fall. Once complete, the improvements will allow for a smoother, quieter ride that will serve the community well into the future.

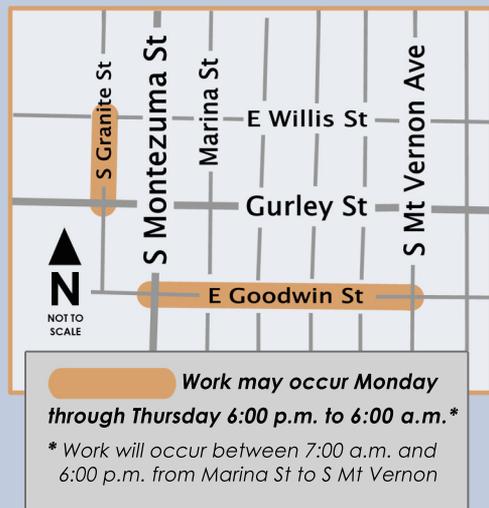

Construction activity and work hours will vary along each section of roadway, with work occurring during nighttime hours to minimize impacts to the traveling public. The City of Prescott invites you to sign up for regular eNews updates to stay informed of times and location of construction activity. Please be aware of lane restrictions, reduced speeds, and flagging operations throughout the construction zone as work begins along these streets.

Work will occur Monday through Thursday 6 p.m. to 6 a.m. This work is highly weather dependent and subject to change.

For questions or comments, call our **Project Hotline at 541.7825**
