Monthly	Replace and Repair Water Waste Device – Apply for a Water Conservation Credit (Take Free education information) WATER SMART CARDS FOR EVERY SEASON & SAVINGS	

Water Awareness Month emphasizes the importance of using water more efficiently. Water education is a cornerstone of any comprehensive water conservation program, and greater awareness of water issues can be gained through community education, action and celebration of water. Practicing a low water-use lifestyle is a way each individual and business in Arizona can help ensure a long-term, sufficient water supply.

You can make a difference in our future by making small changes, starting today.
