

PUBLIC WORKS

ROADWAY PROJECT

Solid Waste Scales and Fee Booth Relocation

MARCH 1, 2024

The project generally consists of relocating the scales and fee booth configuration to Sundog Ranch Road to relieve the traffic congestion problems in the interior of the Transfer Station, and along Sundog Ranch Road. The project includes constructing new fee booth and scales, reconstructing the severely distressed asphalt pavement on Sundog Ranch Road, and widening the roadway to improve ingress and egress to and from the Solid Waste facility for the benefit of users, Transfer Station staff, and Fire and Police personnel accessing their training facility at the end of Sundog Ranch Road.

The design contract was awarded to Kimley-Horn and Associates. The plans are currently nearing completion. Construction is expected to start in late Spring 2024.
