Yavapai Hills #1 Lift Station Rehabilitation

April 2024

UTILITY PROJECT

This project will upgrade an old, inefficient sewer lift station by constructing additional wet wells and pumps. The rehabilitation will provide additional capacities to handle future build out flows from the Yavapai Hills Subdivision.

The design for the project has been awarded to Water Works Engineers. The project has been advertised for bid. The ADEQ construction permit has been approved. Construction is expected to begin in early summer of 2024.
