Zone 52 Water Main Extension Project

April 2024

UTILITY PROJECT

The project will connect the existing 12-inch Zone 52 water main at the southeast corner of Pioneer Parkway and Williamson Valley Road to the existing water mains at the Longview Booster Pump Station. The design of the project has been awarded to the Stanley Group.

All easements have been acquired from the Arizona State Land Department. 100% plans have been submitted and are currently in review. Construction is expected to begin mid-2024.
