Zone 52 Water Main Extension Project

October 2024

UTILITY PROJECT

The project will connect the existing 12-inch Zone 52 water main at the southeast corner of Pioneer Parkway and Williamson Valley Road to the existing water mains at the Longview Booster Pump Station. The design of the project has been awarded to the Stanley Group.

The project was advertised for bidding on September 22, 2024. Construction is expected to begin by the end of the year.
