Effluent & Wastewater Pipelines & SR89 Improvements

April 2025

UTILITY PROJECT

The project generally consists of a new effluent force main and a new gravity sewer main from Kieckhefer Ranch to the Willow Lake Road roundabout. Work may also include roadway and intersection safety improvements along SR89 from the Phippen Trail roundabout to the Willow Lake Road roundabout.

City Council awarded the enhanced 15% preliminary design services contract to Kimley-Horn on November 19, 2024, which includes development of up to 15 potential roadway alternatives.

The first City Council Study Session presentation is scheduled for April 8th. Two (2) more Council presentations and a 60-day public comment period are scheduled for August through September 2025.

The Final Design Concept Report anticipated completion is October 2025.

For current and past milestone project information, go to the project website at:
