Pavement Reconstruction - Stetson Road

May 2025

ROADWAY PROJECT

The primary scope of work includes the removal and/or installation of roadway pavement, sidewalk, ramps, driveways, curb and gutter, storm drain structures, dumpster pads, and pavement markings along Stetson Road and intersecting roadways.

Work also includes brush and debris removal, drainage grading, catch basins, storm drainpipe removal and installation, water services, grouted riprap, asphalt paving, and the adjustment of water valve boxes, and manhole frames and covers.

The project was awarded to Asphalt Paving & Supply.

The project is scheduled to start construction on May 5, 2025; please be aware of temporary street closures, lane restrictions, reduced speeds, rough road conditions, loud noise and flagging operations throughout the work zone. This project is scheduled for completion in late summer 2025.
