Bradshaw Drive Guardrail Installation

August 2025

ROADWAY PROJECT

The project generally consists of improvements to Bradshaw Drive to increase safety along a section of road between Goodwin Street to Jacob Lane. The improvements include guardrails, delineators, signing/markings and asphalt concrete shoulder.

Kimley-Horn and Associates is the Engineer of Record on the project. The plans and bid documents have been completed, and the project was advertised for construction bids. Bid opening was on June 19, 2025. Hawk Contracting was the low bidder. The construction contract was awarded on July 8, 2025. Construction is scheduled to start in August, 2025.
