Effluent & Wastewater Pipelines & SR89 Improvements

November 2025

UTILITY PROJECT

The project generally consists of a new effluent force main and a new gravity sewer main from Kieckhefer Ranch to the Willow Lake Road roundabout. Work may also include roadway and intersection safety improvements along SR89 from the Phippen Trail roundabout to the Willow Lake Road roundabout.

The City Council awarded an enhanced 15% preliminary design services contract to Kimley-Horn on November 19, 2024. Kimley-Horn submitted the final Design Concept Report on October 21, 2025, completing 15% design.

Awarding a contract to complete design will come before the Mayor and Council at a later date. The city anticipates receiving direction from Council in early 2026 on how to proceed with the project.

Following Council's direction, the City will award a contract to complete design by early 2027, bid, award, and start construction in mid-2027 and complete construction by the end of 2028.

For current and past milestone project information, go to the project website at: [***https://www.sr89improvements.com/***](https://www.sr89improvements.com/).
