Willow Creek Gravity Sewer

November 2025

UTILITY PROJECT

The project will generally consist of the installation of a new gravity sewer system to replace the existing force main along Willow Lake Road to the Prescott Lakes Regional Lift Station. The project will also make improvements to the Prescott Lakes Regional Lift Station.

Lyon Engineering is the design consultant for the project. The 100% plans have been reviewed. Phase II Archeology work has begun and is expected to be completed in early November. Construction is anticipated to begin in early 2026.
