**City of Prescott Improves Public Records Request Process for Citizens
with Launch of JustFOIA**

FOR IMMEDIATE RELEASE

PRESCOTT, AZ (February 13, 2026) - As part of ongoing efforts to improve transparency and user accessibility for public records, the Prescott City Clerk's Office is updating its Public Records Request platform to *JustFOIA*. Beginning, Tuesday, February 17th all public records requests will be submitted and handled through the new system.

We are pleased to offer this more convenient and user-friendly option for our citizens as it will improve efficiency and empower the public in understanding how their local government works. For all citizens that currently have open requests through the city's former platform, *NextRequest*, responsive documents will still be provided through that system in accordance with public records law.

Information on using the *JustFOIA* system will be available with Tuesday's launch on the City Clerk's [Public Records Landing Page](#)

Please contact the City Clerk's Office at 928-777-1437 for additional information.
