## **Effluent & Wastewater Pipelines & SR89 Improvements**

February 2026

### **UTILITY PROJECT**

The project generally consists of a new effluent force main and a new gravity sewer main from Kieckhefer Ranch to the Willow Lake Road roundabout. Work may also include roadway and intersection safety improvements along SR89 from the Phippen Trail roundabout to the Willow Lake Road roundabout.

The City Council awarded an enhanced 15% preliminary design services contract to Kimley-Horn on November 19, 2024. Kimley-Horn submitted the final Design Concept Report on October 21, 2025, completing 15% design.

The city anticipates receiving direction at the February 10, 2026, Council meeting on how to complete the final design.

Following Council's direction, the City will award a contract in early 2026 to complete design by the end of 2026, bid, award, and start construction in early 2027 and complete construction by the end of 2028.

For current and past milestone project information, go to the project website at: <https://www.sr89improvements.com/>.
