Water Production Facility & Intermediate Pump Stations

February 2026

UTILITY PROJECT

The project design consultant, Water Works Engineers, and the Construction Manager at Risk (CMAR) contractor, Fann Environmental LLC / Fann Contracting, Inc. joint venture, have been awarded the project. The project consists of two locations: The City's Water Production Facility (WPF) located in Chino Valley, and a new Intermediate Pump Station (IPS) to be located west of Willow Creek Road near the Airport.

Chino Water Production Facility:

The pump station building is complete. The site is now online; the old site's decommissioning and deconstruction has been completed, old pumps, electrical, and infrastructure have been removed. Abandonments and piping alterations to isolate old underground is complete. Final punch list items being completed, finalizing project by February 2026.

Intermediate Pump Station:

The pump station building is complete. The pump station is operational and working together with the WPF facility. Final punch list items have been completed, finalizing project by February 2026.
