PRIVATE DEVELOPMENT SUMMARY

Executive Summary

New private development submittals continue at a slower pace this month. The following projects reflect significant investment in the City of Prescott and we thank these businesses for choosing to locate and expand in Prescott!

South Ranch Phase 3B in the Deep Well Ranch subdivisions has submitted for final plat, engineering permits have been submitted for new sewer lines to serve the Deep Well Ranch commercial area - construction will impact residents on Hole In One Drive in the Golf Links subdivision, and a new oral surgery center has submitted for permits in The Crossings commercial area.

Other highlights from the existing project updates: Embry-Riddle Aeronautical University completed their Strategic Academic Flight Education (SAFE) Complex, the new Deep Well Ranch commercial project will appear before Council on April 14th for water approval, Lakeview Grove (82-unit workforce apts) water approved by Council 3/10/26 and a Special Council Meeting 3/24/26 approved a development agreement for the project's state grant application, and the Plaza Hotel water service application will appear before Council on April 14th.

The City publishes updates to this list on a monthly basis. The public can expect to see updates on the last Wednesday of each month.

The Development Summary Spreadsheet beginning on the next page reflects projects of public interest currently going through some level of entitlement or construction process.

New projects are indicated on the spreadsheet with *bold and italicized font*.

Project updates are depicted from month to month with **red font**.

Projects being removed from the list have either been completed, are withdrawn, or are on hold, and they will be notated as such.

For questions on any of these projects, please reach out to the Community Development Department at 928.777.1405 (Press 0) or via email at planning@prescott-az.gov. Be sure to let the team know you have a question about the Private Development Summary.

Please note that there may be some project information that staff is not at liberty to provide without a Public Records Request.
