City Hall Parking Lot Maintenance

March 2026

ROADWAY PROJECT

This project includes crack sealing and applying a seal coat to the City Hall parking lot. This work will extend the life of the pavement, improve surface condition, and help prevent further deterioration.

Work is scheduled for Saturday, April 18 through early Monday morning, April 20. During this time, portions of the parking lot will be closed and access may be restricted. Please follow all posted signage and temporary traffic control.
