## **City Wide Water Main Replacement Program Phase 2**

March 2026

### **UTILITY PROJECT**

The project consists of the replacement of undersized, deteriorating water mains on Country Club Circle, Brush Street, and Ash Street. Country Club Circle will include approximately 2,000 linear feet (LF) of new 6-inch water main and hydrant replacement. Brush Street will include approximately 500 LF of new 6-inch water main, providing redundancy to the system with the addition of fire protection. Ash Street and North Willow Street will include approximately 790 LF of new 6-inch water main to connect to Western Avenue.

Staff have received 100% final plan submission from the City's design engineering firm, Kimley-Horn. Anticipated posting for bid once the two (2) easements are acquired for water main installation, Roadway and drainage will be added to the scope of the project and is currently under design.
