Willow Creek Gravity Sewer

August 2026

UTILITY PROJECT

The project will generally consist of the installation of a new gravity sewer system to replace the existing force main along Willow Lake Road to the Prescott Lakes Regional Lift Station. The project will also make improvements to the Prescott Lakes Regional Lift Station.

Lyon Engineering is the design consultant for the project. The 100% plans have been reviewed by Staff. Construction is expected to begin in the fall of 2026.
