

Matching Bond Information: Surety2000 and OpenGov

What to enter, and where to find it, so your bid bond verifies the first time.

Surety2000
September 15, 2026

In OpenGov	In Surety2000	What to do
Project ID	Contract ID	Find it in OpenGov. Input it in Surety2000 exactly as shown, including punctuation.
Bid Security	Bond Amount	Find it in OpenGov. Input it in Surety2000 as the bond amount.
Vendor ID	Contractor Vendor ID	The contractor Federal Tax ID (EIN). It must read the same way in both systems.
Bond ID	Bond number	Surety2000 creates it. Input it in OpenGov to verify the bond.

1 Find the Project ID and Bid Security in OpenGov

Open the project in OpenGov. Both appear in the bid bond question inside the Vendor Submissions section, and the Project ID also appears near the top of the page. Copy both exactly and give them to your bonding agent.

CI 5652 - Westlake Boulevard Landscape Improvements

Public Works - CIP 91219, 91227, 91319, 96888, 98836... show all

Project ID: 2025/2026-25

Release Date: Friday, September 4, 2026 · Due Date: Monday, October 5, 2026 3:30pm

Project ID

Input as the Contract ID in Surety2000.

Project ID: 2025/2026-25

Bid Security: 10%

Bid Security

Input as the Bond Amount on the bond.

2 The bonding agent inputs them in Surety2000

The agent inputs the values from OpenGov on the bond. Surety2000 then assigns a **Bond number**.
