Copper Basin Area Roadway Improvements

November 2026

ROADWAY PROJECT

The project generally consists of roadway improvements along Copper Basin Road from Sheriff's Posse Trail to City limits, Sheriff's Posse Trail from Copper Basin Road to City limits, Mullen Way from Copper Basin Road to City limits, and Butte Road from Copper Basin Road to the end of the roadway. The primary scope of work is to remove and replace the roadway asphalt surfaces which have deteriorated and are difficult to maintain.

Work includes the removal and replacement of roadway surfaces, aggregate base, and possibly dirt sub-base. Other improvements may include slope stabilization, protection, and armoring, replacement of damaged curb, gutter, and spandrels, shoulder improvements, guardrail improvements or replacement, ground water mitigation along Butte Road, storm water drainage collection and conveyance system improvements, and utility adjustments.

Civiltec was awarded a design services contract in February 2025. A 90% design review was completed October 28, 2026. The City plans to complete design by the end of 2026, bid, and award, and start construction in early 2027, and complete construction by the end of 2027.
