FY27 Pavement Preservation Phase 2 – The Ranch (south)

November 2026

ROADWAY PROJECT

This project includes applying pavement preservation treatments to portions of Lee Boulevard, West Lee Boulevard, and Rainbow Ridge Drive. Treatments include Type 3 Micro Seal, Cape Seal, and thin asphalt overlays designed to extend pavement life and improve ride quality. The project also includes asphalt repairs in areas of pavement failure, crack sealing, mastic repairs, and curb and gutter repairs.

Sunland Asphalt will continue making asphalt repairs and completing utility adjustments throughout the project area. Surface treatments are scheduled for spring 2027, when temperatures are more favorable for application.

Drivers should use caution when traveling through active work zones, follow posted traffic control signs, and allow extra travel time when needed.

The City appreciates the public's patience as these improvements help preserve roadway conditions and extend pavement service life.
