Miller Valley Road & Grove Avenue Sidewalk Improvements

November 2026

ROADWAY PROJECT

The project generally consists of sidewalk and sidewalk ramp improvements along Miller Valley Road and Grove Avenue between Whipple Street and Gurley Street. The primary scope of work is to remove and replace sidewalk and sidewalk ramps that are not accessible with a mobility device or are not ADA compliant.

Work includes the removal and replacement of sidewalk, sidewalk ramps, driveway entrances, and curb and gutter. Other improvements may include an ADA compliant sidewalk on the east side of Grove Avenue at Lincoln Avenue, roadway improvements to provide space for a sidewalk on the west side of Grove Avenue between Elrod Road and Garden Street, realignment of the Miller Valley Road and Rodeo Drive intersection, work to provide ADA compliant roadway crossings, pedestrian signage and roadway markings, and the relocation/removal of overhead utility and street light poles encroaching into sidewalks and sidewalk ramps.

Burgess & Niple was awarded a design services contract in May 2025. A 90% design review was completed in August 2026. The city plans to complete design by the end of 2026, bid, award, and start construction in early 2027, and complete construction by the end of 2027.
