Whetstine Ave Reconstruction

November 2026

ROADWAY PROJECT

This project consists of the removal and replacement of asphalt and subgrade, narrowing the road to add new curb and gutter, and sidewalk on one side of the street (TBD). This project will also replace the old ACP waterline with a new DIP waterline, and the replacement of sidewalk ramps at the corner of Gail Gardner Way and Whetstine Ave.

This project will be designed in-house; the 60% preliminary plans and specifications are in design.
